Include a stamped self-addressed envelope with all rules questions, submissions, or other inquiries. Most of the information which players seek (e.g., product schedules) is available free on our website.

All submissions are accepted only under our standard terms as published in **SFB Advanced Missions**. In summary, any submission becomes our property on receipt and may be modified at our sole discretion before publication. The author of a submission receives authorship credit and compensation at our standard rates.

ADB, Inc., products are available to individuals in retail stores, from several direct-mail outlets, from the shopping cart on our website, and directly from us. If your store does not carry our products, send us the store name and address and we will have our wholesalers contact the manager.

(Z54.4) DESIGNER'S NOTES

This product was born out of requests by our customers to have all of the Lyran Democratic Republic ship descriptions included in one product to make it easier to look things up. All ships are in rule number order to make searching through the book for a specific unit as simple as any reference book. The Lyran Democratic Republic used (primarily) Klingon fighters and bombers, and the fast patrol ships and Interceptors of the Lyran Empire.

The ship descriptions were all formatted to include all relevant refits applicable to a given unit, and all special considerations, such as special sensors or whether or not a

given ship is a carrier or fast patrol ship tender, or a scout or commando ship, or some or all of these included. Commando ships were all spelled out as to their landing forces and whether or not they could, themselves, land on planets.

Further, all information that had been published in *Captain's Logs* as of the date this product was completed were also included. Ships prior to *Captain's Log #35* had all been published, but any unit that has not been formally published from *Captain's Log #35* through *Captain's Log #53* has been included.

This book also includes all Lyran Democratic Republic ships equipped with advanced technology. The Lyran Democratic Republic did not exist in the Early Years, and if it had, its ships would have been identical to those used by the Lyran Empire in all respects.

As of its date of publication, this book is the most complete accounting of all Lyran Democratic Republic ships, bombers, fighters, fast patrol ships, and Interceptors they used, as well as their ground forces organizations in the game system.

We hope that you enjoy this book and stay in touch.

You will notice on our webpage: www.StarFleetGames.com that you have several avenues to follow ADB. "Discus" takes you to our BBS, where most of the game development takes place. "FC Forum" takes you to our Forum, which is more of a traditional forum to meet other players. You will also see that you can follow our page on Facebook (great for snippets of information and lots of art) and our Twitter account.

Want to find more players? Try our re-vamped Starlist: <http://www.starfleetgames.com/starlist.shtml> and we will send you a list of players near you.

As we say around here, "Don't be a stranger!"

DEDICATION

This product is dedicated to the unknown heroes. Not just those who gave the last full-measure of devotion to their nation, cause, and comrades, but also those whose heroism and self-sacrifice is also unrecognized because no one saw it. True courage and valor is not what is done in the spotlight, but what is achieved, or at least attempted, when there are none to gainsay the failure to make the effort.
