**Gen Con 2007 TOURNAMENT MODULE  
FOR LEVEL 8 CHARACTERS**

*This is a stand-alone adventure that can be played with only the core d20 books!  
Pregenerated characters are included.*

In **Xcrawl**, the players are superstar athletes taking their chances in a live-on-pay-per-view death sport. It's a modern-day world with a fantasy twist, and the game is simple. The Dungeon Judge, or DJ, creates an artificial dungeon under controlled – but lethal – conditions. The players go through the dungeon and try to fulfill whatever conditions the DJ puts forth in order to win. **Xcrawl** is a sport and the challenges are created, but the danger is no less real. If you die, you die!

The official **Xcrawl** tournament module of Gen Con 2007, the Phoenix-Crawl Open is set in a state-of-the-art new arena out of Phoenix, Arizona. The fire-themed adventure proves there's more at stake than just prizes when its DJ turns out to be more than human! This high-octane dungeon promises to be anything but normal...
