What mysteries lurk in the shadows?

Hired by a wizard in search of his legacy, you will soon discover, that a sleepy town, is not all it appears to be.

People are missing, mysteries abound, but at least the food is good. Set in a remote region of the Spineback Mountains, *The Stew* picks up a thread found in *It's In The Wine* and the plots of Caim are slowly ripening.

The Stew is a descent into cooking, legacy, and a strange cult. Newly revised, everything you need to run the adventure is found between the two covers.
